The defense also showed that Bell was available, and as he is the man who has said he paid money to Sheets, it was argued he should be brought in to testify regarding the transaction. After further argument and answering-argument, Judge Eishop denied the motion to dismiss, after ruling that the state need not produce Bell if it did not feel so disposed. The hearing was adjourned until 10 o'clock this morning in Judge Bishop's court in Waterloo. Later the defense sprung its surprise.

TELEGRAPHERS' STRIKE UNBROKEN

A Number of Non-Union Men Arrive in Los Angeles from San Francisco.

HELENA OPERATORS GO OUT.

Little Doing in the Chicago Office -No Signs of Disorder Around Western Union Building.

In New York Regarded as Local and Not Liable to Spread-Half of Eastern Operators Non-Union

Los Angeles, Aug. 9 .- Ten nonunion telegraphers who assisted the Western Union Telegraph company in breaking the recent strike in San Francisco and Oakland, arrived in Los Angeles this morning and were taken at once to the local Western Union office. Four of them were held in reserve and six were sent immediately into the operating room.

Eight or 10 of the strike telegraphers were gathered on the street in front of the building when the strike breakers arrived, but there was no demonstration and no effort to prevent their going to work. "You had better have stayed in Oakland," one of the strikers called out. "You are liable to be needed there before

There was no reply to this and the non-union men were quickly taken to the operating room. The company had 22 men at work, counting chiefs and officials at 9:20 this morning. All business in sight was evidently being handled with small delay, and there was no congestion of messages, owing to the decrease in volume of business. "The subject to delay" notices were still displayed in the business office of the company and this had the effect of diverting a great deal of business to the Postal office where it was taken care of. There is much talk among the striking operators of asking the Postal telegraphers to come out in order to complete the tie locally.

The strikers hailed with joy the news of the strike at Chicago, Helena and other places. All of the men were jubilant at the evidence of sympathy and support from their fellow workmen. The feeling that the strike will be won is very strong among the men.

"They cannot fill our places." said one of the men. "There are not quite enough non-union telegraphers in the country. This will be an orderly strike and no rough work of any sort will be resorted to. We shall not picket any office. It is unnecessary." Manager F. H. Lamb said today:

I will consider his case and if an injustice has been done, I will correct it. The men who are out can return to work and I will then take up Mr. Ryan's case. Or if they will return to work, I will receive a committee from them and discuss the case of Mr. Ryan. I will not, however, treat with the men until after they return to work. President Samuel J, Small of the C. T. U. A., is expected in Los Angeles today to assume charge of the local situation. Asst. Supt. I. N. Miller of the coast division of the Western Union, was due to arrive at noon to take up the fight for the company. Replying to a telegraphed statement of Mr. Miller, to the effect that the telegraphers were smarting under the recent defeat in San Francisco and Oakland and were striking out of spite, one of the leaders of the local operators who are out, said today:

Broken faith at San Francisco, un-American and tyrannical tactics in harrassing Los Angeles men; determination to goad us to desperation, are the causes of this strike. The whole country may yet be involved. We will fight to the last ditch."

HELENA OPERATORS OUT.

Helena, Mont., Aug. 9.—The entire force of the local Western Union office went on strike today, with the exception of the chief operator and his assistant. The strike was due to the marking off of an operator who declined to man the Chicago wire at the request of the traffic chief. Electrician Mc-Klesick of the Chicago office called for a receiver and one of the regular men a receiver and one of the regular men was directed to the wire which posi-tion he refused to accept on the ground that Chicagon tion he refused to accept on the ground that Chicago was a non-union office, Before the chief operator could request anyone else to man it the rest of the force numbering about 40 men joined the discharged operator as he left the room, and all wires are now silent.

LITTLE DOING IN CHICAGO. Chicago, Aug. 9.—Since last midnight when 200 operators struck rather than work with strike breakers at Los Angeles, there has been little doing in the Chicago office of the Western Union Telegraph company at Jackson Boulevard and Clark street or in the branch offices scattered throughout the city.

Only six wire chiefs and four veterant telegraph operators were left in the main Chicago office when the union men, in answer to a whistle, rushed from the keye upon the minth and tenth floors and congregated in front of the building.

CLOWRY AND BROOKS CONFER.

CLOWRY AND BROOKS CONFER.

New York, Aug. 9.—The strike of the telegraph operators in Chicago today is regarded by the company as local in Chicago and not likely to cause a strike here. The walkout of the telegraphers in Chicago has hampered the transmission of business both here and at Chicago, but wire chiefs are doing all they can to move the business.

President Clowry and Gen. Supt. Brooks held a conference today to discuss the situation. Mr. Brooks said:

"There is no reason why the strike in Chicago should bring about a strike in New York. The trouble in Chicago is local in its nature and should not affect this city. Only 50 per cent of the operators in the eastern division belong to the union and in the event of a possible strike we would be able to handle the business without delay. The company is paying the telegraphers the 10 per cent in wages as agreed to in the settlement recently and there is no reason for a strike."

COURT ISSUES A FOREST POLICY

Defense in Sheets Bribery Case Secy. Wilson Says That United Succeeds in Getting Week's Delay.

HAYWOOD'S OPINION OF CASE. | WASTE HAS BEEN ENORMOUS.

Appeal May Be Taken-It Will Prob ably Be Months Before Tangle Can Be Straightened.

Judge Armstrong issued a temporary writ of prohibition this morning against further proceedings in the Sheets bribery case. This expected action was the result of the defense filing a petition or newrit at the conclusion of yesterday's portion of the hearing on before Judge Bishop. It was just what the defense intended should happen. The temporary writ is returnable before Judge Lewis next Friday. At that date and in that court attorneys for both pides will argue the jurisdiction of Judge Bishop in the case while an action on a complaint charging conspir-

ate profits has brought the United States to the eve of a lumber famine, wais the declaration made by Sect of Agriculture Wilson, who arrived here yesterday from the northwest. Although the federal government is doing all in its power to ward off the peril, having set aside 150,000,000 acres of forest reserve lands, the prospective famine, according to Secy. Wilson, can be prevented only by the individual holders of forest lands or by state laws. "The waste has been incalculable," said Secy. Wilson, "and the increased cost of lumber at present heralds an impending famine. The loss by forest fires alone amounts to hundreds of thousands of dollars every year."

In reply to a question as to the probability of the federal government tak-As the bribery hearing now stands it is in anything but satisfactory shape. The state has closed its case; the de-The state has closed its case; the defense effects an interruption which will extend over a week and at least 10 days and thus the wheels are blocked until many weary hours of debate and argument have been passed through. In the meantime Bell will be kept in the county jall; Parrent is out on his recognizance and unfer strict surveillance and Donaldson will be sentenced Sept. 19. As an appeal will be probably taken by one side or another when a decision is finally passed upon Judge Bisnop's jurisdiction it will be months before the hearing will be resumed. What further complications may develop are not known; anything may be expected. Judge Bishop was ready in his court at Waterloo at 10 o'clock this morning, but in the language of the street, "nothing was doing."

It was thought the defense in the Sheets bribery case had something up its sleeve for sudden popping during the hearing which has been on before Judge Bishop, sitting in Judge Whittaker's court, for the past few days. Sheets' attorneys are Judge S. R. Thurman, Soren X. Christensen and E. A. Wedgewood; three lawyers with whom the "blocking" game is an accomplished art. During the last hearing they have taken all things as they came, raising few objections; withdrawing them before all sorts of effects an interruption said:
"It will have to come to that in time, but the checking of the present peril rests with the state and through state laws. The greater part of the eastern and middle west country now looks to the Pacific coast for its lumber, and if the coast states wish to maintain this profitable industry in the future, they will have to pass and enforce suitable laws everying it."

TRIAL VS. HEARING.

New York, Aug. 9.—The right honorable lord chief justice of Ireland. Baron Palles, who has arrived here for a visit to the Adirondacks and Canada, in speaking of the big Standard Oil company fine recently imposed, said:

"If the Standard Oil fine had been imposed in Ireland, the Standard Oil company would either have to pay the \$29.000.00 fine at once, or, if they appealed the case, the appeal would have to be heard and decided without any delay. Then, if the deciden was sustained, we would collect the fine on a judgment immediately.

Soren X, Christensen sprung the surprise in the shape of a petition asking Judge George G, Armstrong to issue a writ of prohibition against further proceedings in the bribery case. The writ is requested on the grounds that Judge Bishop, who is justice of the peace, has no jurisdiction in the case because another complaint covering the same facts but making a charge of conspiracy has been filed in an action pending now in the criminal court.

As was announced, the state did not bring Bell to the stand to testify. When the state announced at the conclusion of Parrent's testimony that its case was finished the defense professed great surprise and threw out an open challenge to the state to produce Bell. This challenge, had it been answered, would have offered the defense an opportunity of seeing the state's hand and cross-examining its star witness. The defense argued at length upon its motion to dismiss the defendant. Concluding, Attorney Christensen said:

"Why if this case were in the district court and before a jury on this bribery charge and the same evidence were introduced, the court would not wait for a motion, but would turn to the jury and instruct it to find a verdict of not

and instruct it to find a verdict of not guilty."

"I will admit that that is true," said Mr. Loufbourow.

The position of the state is that it has brought out enough evidence to show a probability of guilt and this is nil the law requires to be shown at a preliminary hearing. Proof of guilt must be shown at a trial, but probable guilt is sufficient, it is explained, to bind the defendant in a preliminary hearing over for a trial in the district court.

The defense moved that the testi-mony of Parent and Donaldson be

The Boston Consolidated Mining company dropped 300 men from its pay roll in Bingham today. As a reason for taking such a radical step, Acting Manager H. S. Just when this will be, no one knows, In charge of Mrs. A. Jessup, the sewing department in the schools includes teachers and supervisors from every state in the union who have come to New York to get the latest methods in needle and basket work in weaving and dressmaking to take back to their classes in the fall.

In speaking of the Teddy bear craze and its effects upon the children, Mrs. Jessup said: We should be getting 15 cars a day to handle the output of the sulphide mine

handle the output of the sulphide mine alone and 10 cars for the porphyry mine. Yesterday we got no cars at all, and for days and days it has been possible to get only from two or three cars. Sometimes we might get as high as 10 cars; but the local railroad officials wested not promise anything.

"I am satisfied." Mr. Townsend went on, "that the local officials of the Rio Grande have done the very best they could with limited equipment. The Boston Consolidated company has no complaint to make against them. The fault lies at the New York headquarters, where the executive heads have been slow to appreciate the rapid development of this western country during the past few years and as a consequence the road has not been equipped to keep pace with the times. The Rio Grande is not in shape to handle its Bingham business as it should. We have simply got thred of trying to get Jessup said:

"Formerly as I went about the city visiting the different schools it was always a delight to me to see the little girls sitting about in groups making dolls' clothes or engaged in some bit of sewing that I knew they had learned in school. Now, instead of these domestic scenes, it is invariably a Teddy bear that is the center of attraction and the little hands are idle." have simply got tired of trying to get service and that is why we have re-duced our force at Bingham.

\$27,000 A MONTH CUT.

"The letting out of so many men at the Boston Consolidated means a reduction in its monthly payroll of approximately \$27,000, but it is probable that a large portion of the men relieved from service will be able to get employment at other mines in the camp. If not there, in other camps of the state, for mine owners of Beaver county and elsewhere have been complaining because they could not get enough help to operate their properties up to capacity.

At the Utah Copper company's office, Manager D. C. Jackling declared his company would not follow the Boston Consolidated and let out any men; at least not until the transportation situation became very much worse than 't is at the present time, While the Utah Copper company has had its share of troubles with the Rio Grande, at the same time conditions have not become so bad that it has been deemed necessary to take such radical steps as the Boston Consolidated has done. UTAH COPPER SITUATION.

BINS ARE FULL

The cutting off of 300 men from the pay roll is not taken as an indication that ore shipments will cease altogether. On the contrary, the management hopes to send some ore to the smelter. It has the supply in the bins to draw on, and when they are emptied, it is likely more miners will be put back to work in the mine. In the meantime, development work will go on and the steam shovels will be kept at work stripping the overburden from the porphyry ore deposits.

HALSEY OPERATED ON FOR APPENDICITIS.

San Francisco, Aug. 9.—Dr. Thomas E. Schumate reported the condition of Theodore V. Halsey on trial for bribery to Judge Dunne in the superior court this morning when the case was called after the adjournment necessitated yesterday the sudden illness of the defendant. Dr. Shumate testified that he performed an operation for fied that he performed an operation for appendicitis on Mr. Halsey at 9:30 o'clock last night in presence of Dr Galwey and Dr. Sweeney at the St. Francis hospital. He said he found Francis hospital. He said he found the appendix in a gangrenous state and removed them. "The condition of Mr. Halsey today," said Dr. Shumate, "le very serious. It is entirely impracticable to say how long Mr. Halway will be confined to his bed if he recovers. Nor is it possible to say what chance for recovery he has. The case is grave partly because of the weakened condition of the patient at the time he was seized and partly because of the severe and extensive nature of the intestinal disorder," estinal disorder.

After a brief cross-examination of Dr. Shumate by Prosecuting Atty. Johnson, Judge Dunne announced his decision to send Drs. Kerr and Shields to the hospital to examine Mr. Halsey and report to the court at 10 o'clock Monday morning, to which time adjournment was taken.

After the session Dr. Shumate said, discussing Mr. Halsey's case informal.
